Sout Tangerang, Indonesia

PROFESSIONAL SUMMARY

Aspiring Fullstack Developer with hands-on experience in developing both server-side and client-side applications. Skilled in building RESTful APIs, managing databases, and creating responsive user interfaces with modern layouts. Has delivered real-world fullstack projects and is actively improving skills in scalable, maintainable, and cloud-based web development.

TECHNICAL SKILLS

- **Frontend Frameworks** : React.js
- **Backend Frameworks** : Express.js
- **Frontend Technologies**: HTML, CSS
- **Programming Languages** : JavaScript
- **Database** : MySQL

PROJECTS

Contact Management

a. Backend

- Built clean and maintainable RESTful APIs with full CRUD functionality.
- Applied modular backend architecture and standardized JSON response structures.
- Focused on input validation and error handling best practices.

b. Frontend

- Built a responsive Contact Management user interface for managing contact data.
- Integrated RESTful APIs to create, display, update, and delete contact information.
- Implemented clean UI structure and basic client-side validation.

INTERNSHIP/TRAINING

Revou Tech Academy – Intern/Trainee
